

ECO-Tourer

Slipstream Off-Highway features

All standard Eco Tourer features plus the following:-

- Additional roof seal for greater dust protection
 - Lift up front boot lid
 - Spare wheel mounted on strengthened rear bumper
 - Grab handle at door
 - External towel rail fitted to off-side wall
 - Side folding wall supports
 - Checker plate skirt
 - Optional checker plate wheel box
 - Heavy duty tapered chassis with greater ground clearance
 - Longer A-frame (tapered)
 - Stainless steel adjustable stone deflector frame
 - Galvanised steel side protection rails
 - 16" alloy wheels in lieu of 14"
 - 245 / 75 R16 light truck tyres
 - 12" dexter electric brakes in lieu of 10"
 - Heavy duty bearings
 - I & I springs with double wrapped main leaves
 - Provision for additional water tank
 - Deep cycle 12V battery system with 15A smart charger.
- Note: The 12V lighting runs off the battery when there is no 240V A/C power input. When 240V A/C power is available, the lighting automatically switches over to a 240 to 12V A/C transformer to minimise the load on the battery system

Features current as of 18/04/2006
